Subject: Acceptance of Proposal to Construct a Road Across Salt Wash, Diamond K Gypsum, DKG Quarry, M/015/041, Emery County, Utah

Dear Mrs. Palmer:

On September 8, 2005, the Division of Oil, Gas and Mining received your proposal to construct a new road across Salt Wash to access the active mining area. The Division hereby approves this amendment. We will incorporate the map as part of your mining and reclamation plan, and a copy of the map with an approval stamp is enclosed for your copy of the plan.

Also enclosed with this letter is a "letter addendum" to your reclamation contract. This addendum effectively modifies your reclamation contract to incorporate the new road; it will not be necessary for you to submit an entirely new contract. The existing reclamation surety includes a contingency of \$3,504, and this is adequate for reclamation of the road.

The Division understands the Bureau of Land Management is prepared to issue its approval, you will need to obtain this approval before building the road.

Thank you for your cooperation. Please call Paul Baker at 801-538-5261 if you have questions about this approval or the letter addendum.

Sincerely,

Susan M. White
